- English (Upper-Intermediate)
- Spanish (Intermediate)

PROFESSIONAL SUMMARY

Former video producer with 10+ years experience in video production, planning, budgeting and media. Completed full-stack Software Development program focused on Javascript, React, Node, Python, MongoDB. Excited to be considered for full-stack roles to contribute to an organization and learn more about the industry directly.

PROJECTS

Software Engineering Student | Parsity   **6/2022 - 1/2023**

SleepyApp
- An app designed to provide recommendations for a baby's sleep schedule and display nearby playgrounds on an interactive map.

Technologies Used:
- Frontend: React/Redux, Yup, React Google Maps API.
- Backend: MongoDB/Mongoose, Node, Express, Google Maps API Web Services, Passport, Twilio SendGrid Mail Send API.
- Deployment: Heroku.

CallWaiterBot
- Elevate beach bar service with CallWaiterBot – a one-touch solution for customers, seamlessly integrated with Telegram for staff coordination.

Technologies Used:
- Frontend: React, React Context, Material-UI (MUI), and internationalization (i18n).
- Backend: server built with Python & Gunicorn on Amazon EC2.
- Deployment: Netlify.

OTHER EXPERIENCE

Video Producer | Freelance Contractor   **7/2017-8/2020**
- Planned, budgeted, communicated, and handled emergencies within pre-production, post production, and production processes.

Digital Producer | Prodigy Agency   **7/2018-12/2018**
- Assisted with the creation of new designs, preparation of reports, and estimating costs.
- Supervised the creation of web advertisements, videos, and other media.

Venue & Broadcast Producer | Sports Production   **5/2015-11/2019**
- Contributed to 4 projects, including 2nd European Games in Baku, World Weightlifting Championship in Ashgabat, 4th Islamic Solidarity Games in Baku, Judo Grand Slam in Baku.
- Managed all aspects of sports presentation, including pre-production, logistics planning, timeline creation, and scheduling teams.
